Your first week with FlintReady

A practical starting guide for the Complete Library

Download, choose, complete, and practice. You do not need to read every document at once. These steps organize your work; follow current local instructions during an emergency.

1 / Save your library

Open https://www.flintready.com/store/library/ using your checkout email. Download your unlocked PDFs individually or choose Download my PDFs as ZIP. Extract the ZIP before opening the files. Save a copy on a device you can use offline.

2 / Choose the right starting point

Your next task	Open this edition
New to preparedness	Field Manual, then Household Emergency Plan Workbook
Power outage planning	Extended Blackout 72-Hour Playbook
Water interruption	Water Cut 7-Day Playbook
Storm preparation	Hurricane, Flood, or Winter Storm Playbook, as relevant locally
Other situations	Earthquake, Wildfire and Smoke, or Stranded Vehicle Playbook

3 / Print only what you need

Start with household contacts, roles, meeting places, and the pages relevant to your situation. Try one page at Actual size first. Review print preview and keep writing spaces readable. Store sensitive household details securely; do not put them in a public binder.

Seven small sessions

Day 1: Save and choose

Open each downloaded PDF once, save an offline copy, and choose your first two editions.

Day 2: People and contacts

Use the Household Emergency Plan Workbook to record household roles, an out-of-area contact, and communication arrangements.

Day 3: Know your local instructions

Find official alerts, building contacts, and locally designated evacuation information. Record where to check updates.

Day 4: Check what you already have

Use the Field Manual and free 72-hour checklist to list existing supplies and household-specific gaps. Prioritize before shopping.

Day 5: Plan the disruption most relevant to you

Complete the matching playbook's planning fields. Treat generalized guidance as a starting point, not a prediction for your exact address.

Day 6: Walk through the plan

With the household, find your contacts and documents, explain the meeting arrangements, and note questions. Keep the exercise safe and simple.

Day 7: Review and maintain

Assign one person and a date to review contacts, supplies, and the plan. Return to the customer library for current editions and future additions to the collection.

If a download fails

Reload your signed-in library for fresh download links. Check device storage, try an individual PDF, and use the same email as checkout. If you need help, use the contact details in your order receipt. Never share your secure sign-in link.
